

GURUGRAM VISION FORUM

Citizens and Governance in Partnership

Collaborate. Contribute. Change.

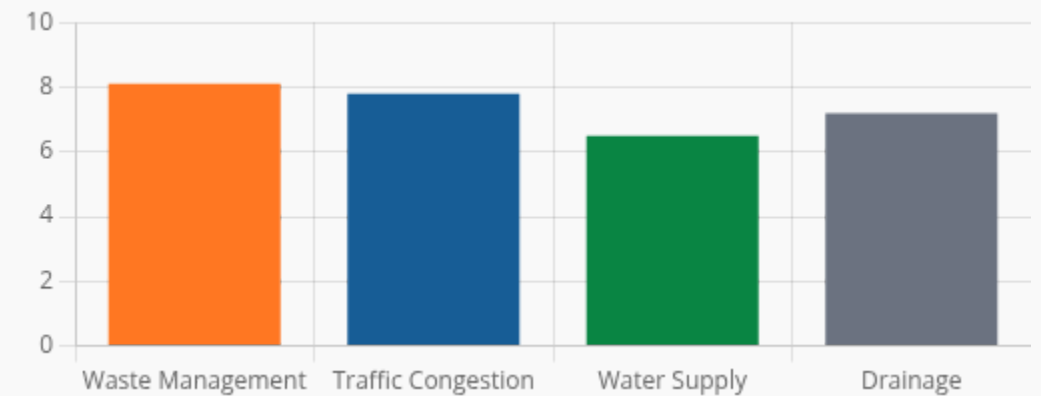

The Context: Gurugram Today

-  Gurugram: **India's fastest-growing Tier 1 city**
Population: **1.28 million+** (2024), projected to reach 2.91 million by 2025
-  Hub of **1000+ corporations**, **600+ startups**, professionals & expatriates
-  Rapid growth outpaced urban planning & infrastructure development
-  Major challenges: traffic congestion, waste management (**81% of 1100 tons/day** dumped without recovery), drainage issues, civic neglect
-  Result: Rising frustration among citizens, despite BJP governance at all levels

Key Infrastructure Challenges

The Dual Problem

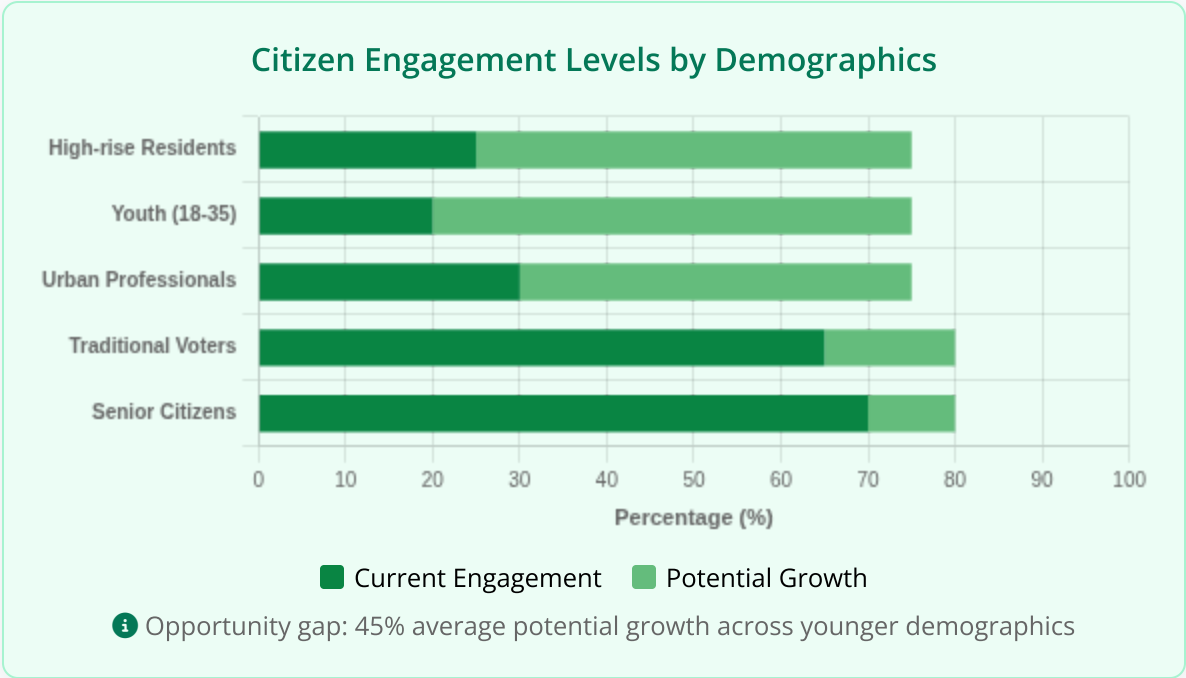

1. Governance Gap

- Rapid expansion with lagging infrastructure development
- Poor coordination among agencies (MCG, GMDA, HUDA)
- Civic aspirations consistently **unmet** despite resources

2. Political Disconnect

- BJP's support strong but civic engagement remains weak
- Limited penetration in high-rise societies, professionals & youth demographics
- Need to turn **passive support** into active civic participation

Solution: Gurugram Vision Forum

Civic-policy platform **linking citizens, government & BJP leadership** to bridge the governance gap

Registered as **NGO / Trust / Forum** with clear governance structure and legal framework

Driven by **professionals, entrepreneurs, youth & community leaders** from diverse backgrounds

Co-create Gurugram's **development vision** through structured civic engagement and collaborative problem-solving

Partnership Ecosystem

Citizens

Residents, RWAs, Youth Groups

Government Bodies

MCG, GMDA, HUDA

BJP Leadership

Party Representatives, Officials

Community Groups

NGOs, Startups, Corporates

Mission & Vision

Vision

To make Gurugram a **world-class, community-driven, and sustainable** city that serves as a model for urban development across India.

Mission

-  Empower citizens to actively shape city policies and development decisions
-  Strengthen dialogue between civil society and administration for better governance
-  Channelize civic energy and expertise to develop real solutions for urban challenges

"A city that thrives on collaboration, innovation, and active participation from all stakeholders"

Objectives

- 1 **Identify and communicate** urban problems to relevant authorities
- 2 **Submit policy & planning solutions** to administration for implementation
- 3 **Build dialogue** between residents and government authorities
- 4 **Organize sewa & social initiatives** to address immediate community needs
- 5 **Engage youth** through internships & innovation labs for fresh perspectives
- 6 **Bridge BJP's political goodwill** with increased civic visibility

Problem Identification

Policy Solutions

Community Service

Youth Engagement

Political-Civic Bridge

Organizational Structure

STRATEGIC LEVEL

Vision & Direction

Advisory Board

8-12 experts from corporate, legal, academic, urban planning, and media sectors providing strategic guidance

OPERATIONAL LEVEL

Execution & Management

City Executive Committee

Core leadership team managing day-to-day operations, government liaison, and policy coordination

IMPLEMENTATION LEVEL

Action & Delivery

Area Chapters

Sector and ward-level committees

Volunteers

Event execution and sewa drives

Youth Fellows

Research and innovation support

Key Initiatives

-  **Policy Dialogues:** Regular meetings between citizens and officials from MCG/GMDA to discuss urban policies and improvements
-  **Urban Innovation Labs:** Problem-solving workshops bringing together experts, citizens, and officials to develop practical solutions
-  **Community Townhalls:** Open forums facilitating direct interaction between residents and administrative officials
-  **Sewa Drives:** Volunteer initiatives focusing on environment, education, and cleanliness with community participation
-  **Vision Summit:** Annual flagship conclave bringing together all stakeholders to evaluate progress and set future goals
-  **Digital Platform:** Integrated app/website for issue reporting, collaboration, and tracking civic improvements

Implementation Timeline - Year 1

Q1: Foundation Phase

Launch digital platform & begin policy dialogues with initial stakeholder meetings

Q2: Expansion Phase

Implement first Urban Innovation Lab & organize sector-level community townhalls

Q3: Action Phase

Launch Sewa Drives across multiple sectors & expand policy dialogue participation

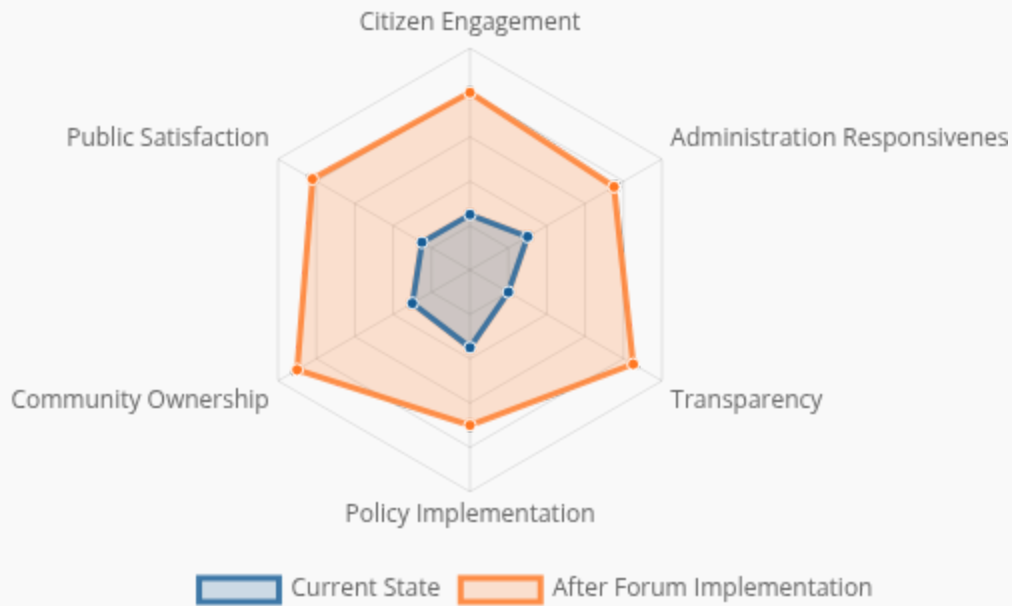

Q4: Consolidation Phase

Host inaugural Vision Summit & evaluate first-year impact metrics

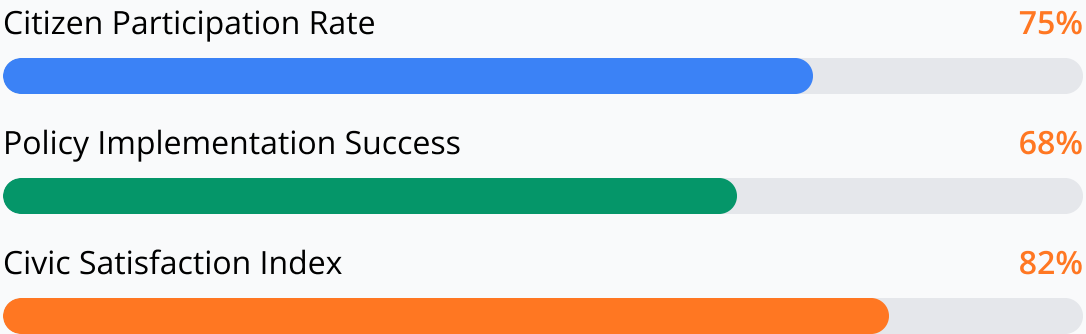

Expected Impact

-  **Citizens actively shaping governance** through structured participation channels and policy feedback mechanisms
-  **Improved administration accountability** with transparent performance metrics and regular public reviews
-  **Strengthened BJP-citizen connect** in urban areas, particularly high-rise societies and among professionals
-  **Enhanced civic pride and participatory culture** fostering community ownership of urban development
-  **Gurugram as a model** for people-driven governance in rapidly developing urban centers across India

Impact Metrics by 2026

Success Indicators

Roadmap: First Year

Foundation

Month 1-2

- ✓ Form Advisory Board (8-12 experts)
- ✓ Register Forum as NGO/Trust
- ✓ Develop charter & governance model
- ✓ Initial branding & digital presence

Mobilization

Month 3-5

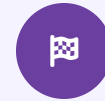

- ✓ Recruit Area Chapter leadership
- ✓ Launch volunteer program
- ✓ Begin youth fellowship applications
- ✓ Initial partnership outreach

Outreach

Month 6-8

- ✓ First Policy Dialogue events
- ✓ Launch initial sewa projects
- ✓ Conduct community townhalls
- ✓ First Urban Innovation Lab

Consolidation

Month 9-12

- ✓ Host Gurugram Vision Summit
- ✓ Publish first policy documents
- ✓ Assess program outcomes
- ✓ Plan Year 2 strategy expansion

Branding & Communication

Gurugram: Growing Together

Communication Tools

-  Monthly newsletters featuring citizen stories & civic updates
-  Short documentary films showcasing successful initiatives
-  Expert blogs on urban planning & community development

Digital Presence

Website
gurgaonvisionforum.org

LinkedIn
Professional network

Instagram
Visual storytelling

WhatsApp
Community groups

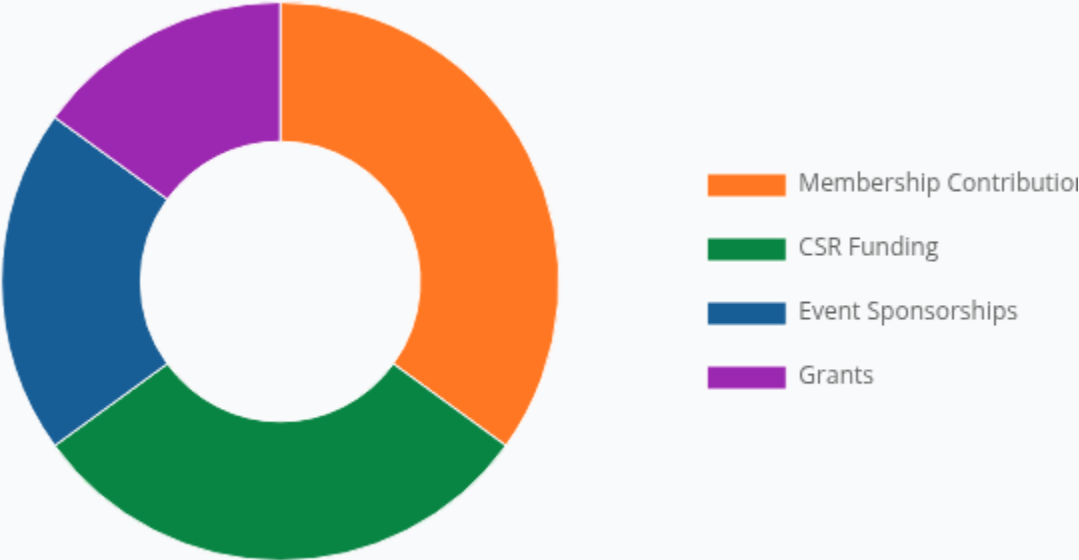

Brand Elements

- Saffron, green, and blue color palette representing civic pride
- Circular unity motif symbolizing community collaboration
- Skyline silhouette depicting Gurugram's architectural identity
- Professional typography for government-aligned communications

Funding & Partnerships

Funding Sources

Funding Allocation Strategy

- Membership: 35%
- CSR Funding: 30%
- Event Sponsorships: 20%
- Grants: 15%

Strategic Partnerships

Corporate Partnerships

CSR initiatives, employee volunteering, and tech expertise from leading Gurugram corporations

University Partnerships

Research support, youth programs, and innovation labs with educational institutions

Government Agencies

Facilitated dialogue with MCG, GMDA and other civic authorities for implementation

Community Organizations

RWAs, social groups, and local NGOs for grassroots outreach and implementation

Call to Action

Let's build the Gurugram we all dream of.

A city that thrives on **collaboration**, **innovation**, and **participation**.

-  Join hands with diverse stakeholders to create a unified vision
-  Contribute innovative ideas to solve urban challenges
-  Participate actively in community initiatives and governance
-  Transform Gurugram into a model for people-driven urban governance

Together We Build

Citizens + Government + Businesses + Communities

Contact & Next Steps

Moving Forward Together

Core Committee Formation

Assembling a diverse team of professionals, community leaders, and domain experts

Registration & Charter Drafting

Legal establishment as an NGO/Trust with clear governance framework

First Townhall Launch Event

Public introduction of the initiative, seeking citizen inputs and early adopters

Priority Issues Identification

Data-driven approach to identify top civic concerns for immediate action
